Hi All,

I don't know about the numbers but I have time this afternoon to work on the chart.
Unless you're working on it now Mark?

One question I had. Are the relativity numbers actually SEMS numbers? I wouldn't think so, but I could be wrong. I am not sure what that number would be referred to as. I only ask because we called them SEMS numbers in the chart.

Mark and Shaula,

I completed 15 of the 42 remaining documents today. I will likely not have time today to continue on this, so I am sending the most recent version in case you were planning on working on it this afternoon. I will likely have some time tomorrow to pick back up.

Many thanks,

Will

Shaula,

Thank you for working on the table last week. I've modified your version to update the date and add page numbering.
Here's the current version.
